

N. B. Falkner Esq., and Thos. Holden Esq., also responded in fitting terms to the toast of "Our Guests."

The *Ladies' Press* followed, and was acknowledged by A. McFee, Esq., L. O. Brown and D. B. Robertson, Esq.

Several Volunteer toasts followed and another hour was pleasantly spent in song and sentiment.

One feature of the celebration, worthy of record, was the attendance at Church and in the procession, yesterday, of A. O. PETHIE, Esq., the oldest resident of the Town, who informed us that this was the 60th anniversary

ary of St. Andrew's Day that he had spent in Belleville. The old gentleman has been in poor health for a number of years, and although hardly able to move from his bed, his enthusiasm for St. Andrew's Day and his love for his native country impelled him to join his fellow countrymen in the celebration of the patron saint of said Scotia. May be he enjoyed many years yet.

The Red River Revolt a Fenian Plot.

The Buffalo Express is inclined to think that the resistance to British authority in Red River is the work of the Fenian organ

ization. We are not disposed to question the correctness of that opinion. If the Fenians thought they had a chance to annoy Great Britain or Canada by endeavoring to create a revolt in Red River, even if it resulted in the massacre of every man, woman and child in the Territory, they would try it, and the *Express* and a large

"We have reason to believe that the Fenian organization is at the bottom of this Red River movement; that the Fenian leaders have been secretly at work for several months to bring it about, and that their later plans have been chiefly directed to their consummation. If we

are not much misled by what we gather, the present occurrences in the Red River country form the beginning of the execution of an entirely new Feolao programme for which it is claimed that the organization has more means in hand and better preparations than it ever had before. Should it be the fact, as we believe, that their plans have taken the direction of such an initiative, the Feolao leaders are certainly to be credited with more shrewdness than

has hitherto been evinced by them. The fertile British territory beyond Lake Superior is absolutely indefensible by Canada or England. Neither troops nor supplies can be conveyed to it in the winter season except through the United States. A small Fenian force will suffice to wrest it from the Dominion and the Crown; and the territory is of immense extent and value. A Fenian capture would be a deadly blow both morally and materially

"What further direction the operations of the F. B. may take we are unable to give any indication, but we think it is expected, in their own ranks and by both the Canadian and American authorities, that the coming winter will see active undertakings of some sort."

Corrupt Indeed.

The *Hamilton Times* makes the following humiliating confession of the corruptness of its party, which acknowledgment, however, we are not prepared to accept in all cases:—

"The *Belleville Intelligencer* has made a discovery. It is that if it be true, as the *Hamilton*

Times said some days ago, that John A. "whole political career has been marked by the 'purchase of political opponents,' then, in their own confession, are Reformers purchasable articles. If the *Tribune* will slight improve its logic, we can agree with it. Let us put it as being the case that some Reformers have proved themselves purchasable articles and there will be no room left for dispute. We will even go farther and say that the principle

We wonder if it ever occurred to the *Times* that men may, upon becoming better acquainted with the

ed with another's opinions and policy, change their own? When men's education is derived from a corrupt source, it is no wonder the change when their eyes are open, hence the *Times* should be more charitable to those whom the reform press has been manufacturing for the last fifteen years.

DR. JAMES,
ECLECTIC PHYSICIAN,
SURGEON AND ACCOUCHEUR (WOMAN AND INFANT),
GRADUATE of Eclectic College of Pennsylvania
and Laureate of the Eclectic Medical Board of Texas,
would respectfully state to the people of Belleville,
the Counties of Hastings and Prince Edward, that he
has resumed his practice among them, and is now treat-
ing successfully the following diseases: Epilepsy, or
Falling Fits, in their worst form; Consumption, in its
various stages;

These Fish, even after they have been pronounced by the medical profession of ten and twenty years' standing, incurable, and when patients are partially restored are now being restored to sound health by Dr. James' Food.

With Dr. James' Food you can be no longer an incurable disease. When patients have lost the use of one entire lung they can be restored to good health so that such persons can attend to their occupations with great comfort to themselves for many years, and ultimately die of other diseases.

This is to certify that during the winter of 1886 I was taken with a weakness of the arms which gradually, during the spring of 1887, extended to my knees, and on up to my hips. I became so weak that I could not walk, but was confined to my chair. For about two years, while this weakness was coming on me, and afterwards, I sought medical advice, employing, at different times, Dr.

doctors, and medicines of different kinds prescribed by friends, but of no avail. I continued to get worse and worse, until the summer of 1868, when I was induced to try the great Shoshonean Remedy by reading the cure performed, in a pamphlet. At this time I began to feel the weakness in my hands; in fact I was getting almost helpless. I had taken two bottles of the Shoshonean Remedy and two boxes of the pills and I am entirely restored to health. I never expected to be able to do any more work, but I can now do all the work of a man.

I know that while ill her case was declared hopeless; and I know that one has, in her recovery, always attributed her recovery to the Rhinoceros Remedy. Whatever may be the peculiar properties of this medicine, or what is certain, that in her case, it has acted almost like the performance of a miracle.

St. Paul, MINNESOTA, Dec. 2.

A letter, just received, dated Winnipeg, 16th November,

The council called by the half brothers to a day of discussion was not large. After a short time spent making private consultation, it adjourned till November 16th.

Copies of George McTavish's proclamation, issued at Winnipeg, 16th November, in the French and English languages were circulated in the West, and produced a marked effect.

"Business is at a stand still," but little trade goes on, and the great majority of money among the people, who are seriously to reflect on the consequences of the measure.

The letter proceeds:

"A careful estimate shows only 500 men employed in the construction, 800 of them engaged in the transportation of the material. They live by the sale of their skins, the mails or private business, and the majority of the people wait the decisive movement on our part."

"In answer to an address, assigned by a large number of influential inhabitants against the proposed measure, and against their present course, Mr. McTavish

Only about 30 insurgents remain under arms, and the remainder have disbanded and returned to their homes or to the plains upon their winter buffalo hunt.

The insurgent Council met on the 10th and 11th inst. at the residence of their deliberations was unknown; but it was thought probable by the inhabitants of the Territory that they would decide to demand the insurrectionary movement.

Gov. McDoogal to come in and assume the reins of government.

The Indians, Kiowa, the Cree and Bangale, are both favorable to Mr. McDoogal.

It is widely said as strong was the opposition to Mr. McDoogal's nomination as the course pursued by the French minister had that time arrived for the Hudson Bay Company to surrender the territory of the Dominion when Governor McDoogal reached the border they would have been in arms, and the result would have been different.

until the 1st of December Governor McDoogal

to be justified in any case, and would they wait the Settlement. They would wait, but their course, bidding time until DeceMBER 1, 1891, was late Mr. McDaniel, will make a proclamation and probably find little or no opposition to it.

Governor McTavish was very dry, ill, with no hopes of recovery, yet his authority is respected.

Since his proclamation, the mails have not been tampered with, nor have travellers been molested.

BELL FOUNDRY
 THE Subscribers are still manufacturing

cost of the Brass Composition Bells, warranted to stand for one year. As there are about 1,000 of our home manufactured Bells now in use, some of which have been used for over seven years, they are well known, and wherever they have been

cheapness, durability, and force of tone, cannot be surpassed.

This is to certify that during the winter

I tended to my knees, and on up to my bed I became so weak that I could not get up but was confined to my chair. For two years, while this weakness was on me, and afterwards, I sought advice, employing, at different times

tinued to get worse and worse, until the summer of 1863, when I was induced to try great Shoshonea Remedy by reading the advertisement, in a pamphlet. At this time I began to feel the weakness in my back, and I was getting almost helpless. I took two bottles of the Shoshonea

restored to health. I never expected better, but simply tried the medicine as of forlorn hope. This case of mine was private one, but known to all my neighbors; and to any one afflicted as I have only to say try the Shoshonees. He I believe it will cure you.

I hereby certify that I have known Mrs. Ann Daughity for the last fifteen years; a woman of probity and truth. I have known her before, during, and since her illness.

I know that while in her case we feared hopelessness; and I know that such was her recovery, always attributed her recovery to the Shoshonou Remedy. Whatever may be the peculiar properties of this medicine, the thing is certain, that in her case, it has almost like the performance of a miracle.
